

2019 EQUIPMENT REBATES

Residential Equipment Rebates

Visit MassSave.com/Rebates for full details, eligibility requirements and submission dates.

FUEL TYPE	SYSTEM	REQUIREMENT		REBATE AMOUNT	
Oil	Furnace with ECM	AFUE ≥ 86%		\$650	
	Hot Water Boiler	AFUE ≥ 86%		\$800	
	Indirect Water Heater	Connected to Hot Water Boiler		\$400	
	Outdoor Boiler Reset Control	After-Market Add-On Unit Attached to Forced Hot Water Boiler		\$100	
Propane	Furnace with ECM	AFUE ≥ 95%		\$1,000	
	Hot Water Boiler	AFUE ≥ 90%	AFUE ≥ 95%	\$1,500	\$2,300
	Condensing Boiler with On-Demand Water Heater	AFUE ≥ 95%		\$2,000	
	ENERGY STAR® Qualified On-Demand Tankless Water Heater	UEF ≥ 0.87		\$800	
	Indirect Water Heater	Connected to Hot Water Boiler		\$400	
	Outdoor Boiler Reset Control	After-Market Add-On Unit Attached to Forced Hot Water Boiler		\$100	
Natural Gas	Furnace with ECM	AFUE ≥ 95%	AFUE ≥ 97%	\$1,000	\$1,250
	Hot Water Boiler	AFUE ≥ 90%	AFUE ≥ 95%	\$2,000	\$2,750
	Condensing Boiler with On-Demand Water Heater	AFUE ≥ 95%		\$2,400	
	Furnace with ECM with On-Demand Water Heater	AFUE ≥ 97%		\$950	
	ENERGY STAR Qualified On-Demand Tankless Water Heater	UEF ≥ 0.87		\$700	
	Indirect Water Heater	Connected to Natural Gas Forced Hot Water Boiler		\$400	
	ENERGY STAR Qualified Condensing Gas Water Heater	UEF ≥ 0.80		\$500	
	ENERGY STAR Qualified Storage Water Heater	UEF ≥ 0.64 Medium Draw, UEF ≥ 0.68 High Draw		\$100	
	Outdoor Boiler Reset Control	After-Market Add-On Unit Attached to Forced Hot Water Boiler		\$225	
	Heat Recovery Ventilator	A factory-assembled, packaged unit including fans or blowers that transfer heat between two isolated airstreams		\$500	
Electric	Central Air Conditioning, Ducted	SEER ≥ 16, EER ≥ 13		\$50 per ton	
	Air Source Heat Pump, Ducted or Mixed Ducted	SEER ≥ 15, HSPF ≥ 9		\$350 per ton	
		Displacing Oil or Propane; SEER ≥ 15, HSPF ≥ 9; must have Integrated Controls		\$1,000 per ton	
	Air Source Heat Pump, Non-Ducted*	NEEP*, SEER ≥ 15, HSPF ≥ 10, COP 1.75 at 5 degrees		\$150 per ton	
		Replacing Electric Heat; NEEP*, SEER ≥ 15, HSPF ≥ 10, COP 1.75 at 5 degrees; 900 kWh/month difference between 3 winter and 3 lowest-usage months		\$1,000 per ton	
		Displacing Oil or Propane; NEEP*, SEER ≥ 15, HSPF ≥ 10, COP 1.75 at 5 degrees; must have Integrated Controls		\$1,600 per ton	
	Integrated Controls	Displacing Oil or Propane; Added to existing air source heat pump equipment.		\$500 per zone, up to \$1,500	
Heat Pump Water Heater	> 55 gallons, UEF ≥ 2.7	≤ 55 gallons, UEF ≥ 2.0	\$150	\$600	

*Visit NEEP.org for the NEEP Cold Climate Air-Source Heat Pump Product List.

Residential Thermostat Equipment Rebates

Visit [MassSave.com/Thermostats](https://masssave.com/thermostats) for full details, eligibility requirements and submission dates.

QUALIFYING PRODUCT	REQUIREMENT	REBATE AMOUNT
Programmable Thermostat	New only. Limit 4 per account.	\$25/thermostat
ENERGY STAR Qualified Smart Thermostat	New only. Wireless connections must be enabled. Limit 4 per account.	\$100/thermostat

Commercial & Industrial Equipment Rebates

For more information and to apply for natural gas-fueled Commercial & Industrial measures, visit [MassSaveApplicationPortal.com](https://masssaveapplicationportal.com). Columbia Gas customers may also apply online at <https://efi.secure.force.com/client/LandingMARebatesV1>.

QUALIFYING EQUIPMENT	REQUIREMENT	REBATE AMOUNT
Condensing Boiler	1701 to 2000 MBH, 90% Thermal Efficiency or greater	\$10,000
	1000 to 1700 MBH, 90% Thermal Efficiency or greater	\$7,500
	500 to 999 MBH, 90% Thermal Efficiency or greater	\$4,000
	301 to 499 MBH, 90% Thermal Efficiency or greater	\$2,000
	Up to 300 MBH, 95% AFUE or greater	\$1,500
	Up to 300 MBH, 90% AFUE or greater	\$1,000
Furnace	Up to 150 MBH, 97% AFUE or greater & ECM motor	\$600
	Up to 150 MBH, 95% AFUE or greater & ECM motor	\$300
Furnace with On-Demand Hot Water	97% AFUE or greater & ECM motor	\$1,200
Integrated Condensing Rating Rebate Boiler/Water Heater with On-Demand Hot Water	Minimum AFUE Rating of 95%	\$1,600
	Minimum AFUE Rating of 90%	\$1,200
Condensing Unit Heater Rating Rebate	Up to 300 MBH, 90% Thermal Efficiency or greater	\$750
Infrared Heaters	All Sizes, Low Intensity	\$750

Commercial & Industrial Additional Measures

QUALIFYING PRODUCT	REQUIREMENT	REBATE AMOUNT
After Market Boiler Reset Controls	Installed on Natural Gas Forced Hot Water Boilers	\$225
ENERGY STAR Wi-Fi Thermostat	New only. Wireless connections must be enabled.	up to \$100
Programmable Thermostat		up to \$25
Steam Traps		\$50
Shower Heads	1.75 GPM or less	up to \$20
Faucet Aerators	1.5 GPM or less	up to \$8
